Cats down listen to you they hiss at you they sometimes bite.

Dogs are loyal, they listen to you, snuggle with you, Play with you.

You are being brainwashed by the cats. They don't like you!!!

both my cats have never hissed at me or bitten me unless they're playing and whenever I'm sick they check in on me and they listen to me and snuggle with me.

@Atlas

Agree to disgaree mate (Although it might just be that our dogggos are strange, they're psycho-manipulative, while my cats are more like stereotypical dogs)

Fun fact, this actually happened

3:00 AM: *Wakes up to pain* Uggggghh-OW what?
Dog: *Glares at me, walking all over me, with sadistic eyes that say "Because I COULD?"*

3:00 AM another night: *wakes up to a heavy thing on my face* MPPH!
Cat: *Is purring happily, snuggling on top of my head*

Both animals have their moments but I don't think any are necessarily better than the other. However, you're entitled to your opinion.

In other words, weird flex but go off I guess

Cats are good for sitting on your lap.
Dogs are good for absolutely everything else.

cats are demonspawn whose only redeeming qualities are their fluffiness, cuteness, and warmth, which they then use to trick you into thinking they are much better than they actually are, and to cover up their heinous crimes. they will soon take over the world like this, and we must spread the word before it is too late!!

if you would like to save the world from the wrath of the cats, put #FELINESAREFRAUDS in your siggy!!!

...If I may express, just because cats are supposedly less cuddly than dogs, that doesn't mean they're "dumb", unless "dumb" in the title means something on the Internet I don't know, in which case I'm going to quietly teleport out...:)
